

CARD GAME

# SPELLFIRE

• Re-Master the Magic •

# Crypto and NFT Market

Non-fungible tokens and the digital goods market will continue to grow with an increasing demand for virtual assets and in game items.

The games that are based on blockchain technology provide a solution where players can own and trade their valuable assets, as well as gain passive income from these objects being used by others.

# What is SPELLFIRE?

When the **Collectible Card Games** were almost lost in time, five mighty kings woke up from a deep sleep and started to recover things lost in time. A long-lost world full of spells, dungeons, monsters, legends, and magic has been **brought back to life**.

**Collect!** thousands unique, extremely rare collectable cards.

**Create!** new unique cards, with special powers and marvelous stories.

**Build!** an empire and the strongest deck in game.

**Evolve!** your card powers, learn unique spells.

**Earn!** ETH by upgrading and selling your physical and digital cards.

**Live!** Social live in the magical world of Spellfire.

# Collect! Truly Own your Cards!

Be the **True Owner** of the physical and digital card text and design. Earn ETH while all citizens in Spellfire world will purchase your cards.

Gather experience for the card in the battles and make it even more powerful and valuable.

Each card you own that will be used in the game by other players will earn ETH for you.

FLAMING  
WATERS

# Create! High Quality Characters

Each character in Spellfire has its own story, upgradeable skills, and items or realms that synergize with him.

Spellfire cards are meticulously designed to be collectible and tradable. You can own them, trade them, sell, and improve their powers – you own every aspect of the card!

Create your character, spell, skill with your powers. Our designers will draw the design and add the card to the Spellfire world.

BLOOD BIRTH

# Build! the strongest deck

Collect all prime edition realms to see the Map of Spellfire mainland. Collect realms from other editions to see the map of the World of Spellfire.

Build the strongest deck to participate in the battles and win extremely rare, Legendary characters, artifacts, and magical items.

# Evolve! physical Interactive cards

Digital and physical interactive cards can be upgraded by fusing various cards. You can choose different upgrade paths for most interactive champions, spells, powers, and skills.

When cards participate in the battles, they earn experience, which unlocks higher card levels. Spells get stronger; champions get smarter; realms become more powerful.

Unique QR codes represent cards as NFT and give access to set ownership. Owning the card allows you to trade or sell it on Card Marketplace. Epic and Legendary cards are extremely valuable!

WET DESERTS

# Earn! Play to Earn ETH

1,000,000 SPF tokens will be distributed through  
in-game rewards: Tournaments, Special collections,  
Achievements

The value of collected and upgraded NFT realms, holdings,  
champions, spells, powers, abilities, and other interactive  
cards will explode quickly.

Owning the texts and design of the cards will earn you  
passive income when selling copies of the card.

# Live! socialize in Spellfire world
